

Mobile Retroreflectivity Providers

Material Producer List

Materials and Tests Division – Coatings and Traffic Materials Section

Mobile Retroreflectivity Providers

Item 666 requires minimum retroreflectivity for pavement markings on all projects totaling more than 20,000 ft. of pavement markings. Retroreflectivity is either collected and submitted by the pavement marking contractor or a subcontractor in accordance with Special Specification 6291, Mobile Retroreflectivity Data Collection for Pavement Markings; and both the mobile retroreflectometer and the operators must be certified by the Texas A&M Transportation Institute (TTI) Mobile Retroreflectometer Certification Program.

The list of Certified Mobile Retro Providers is maintained by the Texas Transportation Institute. The list can be accessed at the following link:

<https://groups.tti.tamu.edu/visibility/programs-and-guidance/mobile-retro-certification/certified-providers/>

For more information, contact the Materials and Test Division's Coatings and Traffic Materials Section at (512) 865-1542.
