

# Roadway Illumination and Electrical Supplies

---

## Material Producer List

Traffic Operations Division – Traffic Engineering Section

## Table of Contents

### Materials Pre-qualified for Illumination and Electrical items 610-687

No additional submittals are required for products that are pre-qualified

	<u>Page</u>
<b>Item 610 – Roadway Illumination Assemblies.....</b>	<b>4</b>
Item 613 – High Mast Illumination Poles.....	17
Item 614 – High Mast Illumination Assemblies.....	18
Item 618 – Conduit.....	22
Item 620 – Electrical Conductors..... (Includes breakaway connectors)	28
Item 621 – Tray Cable.....	33
Item 622 – Duct Cable.....	35
Item 624 – Ground Boxes.....	37
Item 628 – Electrical Services.....	43
Item 685 – Roadside Flashing Beacon Assemblies – Single Pole Breakaway Connectors .....	47
Item 687 – Pedestal Pole Assemblies .....	50

*Click on any Item above to go directly to that page*

For more information about these materials, contact the Traffic Operations Division, Engineering Operations Branch at (512) 416-3232.

#### **Notice:**

All submittal and corresponding documentation becomes public information. All manufacturers' products that are listed within this document are pre-qualified. Manufacturer name change does not change the pre-qualified status of the original material. TxDOT reserves the right to remove any manufacturer or product from this list, at any time. Manufacturers interested in being added to the pre-qualified list should contact Traffic Operations Division.

## Item 610 – Roadway Illumination Assemblies

### *General*

Roadway Illumination Poles do not need to be pre-qualified when TxDOT RIP (Roadway Illumination Pole) standard sheets are included in the plan set.

### *Construction*

Perform work in accordance with the details shown on the plans, and the requirements of Item 610 and applicable Special Provisions to Item 610.

Fabricate steel roadway illumination poles in accordance with TxDOT standards RIP (Roadway Illumination Pole). Poles fabricated according to RIP standard sheets require no shop drawings.

Alternate designs to RIP or the use of aluminum to fabricate poles will require the submission of shop drawings electronically.

For instructions on the requirements and procedures of shop drawings go to:  
<http://www.txdot.gov/business/resources/specifications/shop-drawings.html>.

Click on “Requirements and Procedures for Optional and Non-Standard Illumination Pole Designs and Shop Drawings.”

## Item 610 – Roadway Illumination Assemblies

### General

The following products are pre-qualified for use on the projects where roadway illumination assemblies are furnished or installed as required by the item descriptive code. Fixtures are subject to testing. No substitutions of products will be allowed when pre-qualified products are shown. Where miscellaneous parts, brackets, hardware, nuts, bolts, washers, or other incidentals are necessary and are not shown as pre-qualified products, the contractor shall furnish products that meet the requirements of the plans and specifications.

### Item 610 - Roadway Illumination Assemblies – Underpass Fixture

### Item 610 - Breakaway Transformer Base

Manufacturer	Brand	Type	Model
Akron Foundry Co.  2728 Wingate Ave. Akron, OH 44314 (330) 745-3101  <a href="http://akronfoundry.com">akronfoundry.com</a>	Akron	♦ Breakaway Transformer Base for Luminaire Poles Less Than 40 Foot Height  ♦ Breakaway Transformer Base for Luminaire Poles 40 to 50 Foot Height	♦ TB1-17  ♦ TB3-17

## Item 613 – High Mast Illumination Poles

### General

There are no pre-qualified High Mast Illumination Poles.

### Construction

Perform work in accordance with the details shown on the plans, and the requirements of item 613. Provide components that fit together properly.

- (a) **Standard Design.** Fabricate poles in accordance with this Item and the plans. Alternate designs are not permitted.
- (b) **Shop Drawings.** Do not submit shop drawings for high mast illumination poles fabricated in accordance with this Item and the plans.

## Item 614 – High Mast Illumination Assemblies

### General

The following products are pre-qualified for use on the projects where high mast illumination assemblies are furnished or installed as required by the item descriptive code. Fixtures are subject to testing. No substitutions of products will be allowed when pre-qualified products are shown. Where miscellaneous parts, brackets, hardware, nuts, bolts, washers, or other incidentals are necessary and are not shown as pre-qualified products, the contractor shall furnish products that meet the requirements of the plans and specifications.
