Roadway Illumination Pole and Luminaire Arm Fabrication Plants

Material Producer List
Materials and Tests Division - Prefabricated Structural Materials Section
Reference

Refer to the Department’s Standard Specifications for Construction and Maintenance of Highways, Streets, and Bridges for information on the following:

- Item 610, “Roadway Illumination Assemblies”

Fabrication Plants

The following fabrication plants that produce roadway illumination poles, including luminaire arms, have been approved in accordance with DMS-7380, “Steel Non-Bridge Member Fabrication Plant Qualification,” which is referenced in Item 610. This includes fabricators of aluminum roadway illumination poles and luminaire arms.

(♦) – Approved to produce aluminum roadway illumination poles and luminaire arms only

NOTE: Roadway illumination poles and luminaire arms will have the fabricator’s designated approval stamp, as shown on the following page, placed on the approved items.

General

The Department reserves the right to conduct random sampling and testing and visual inspections of materials from approved fabrication plants. Department representatives may sample and inspect material from the fabrication plant or the project site. Materials and Tests Division (MTD) reserves the right to test samples to verify compliance with Item 610.

For more information, contact MTD’s Prefabricated Structural Materials Section at (512) 506-5924.
