Road user costs are the values used in A + B bidding and incentive/disincentives for milestones, final substantial completion, and lane rentals.

Each year we adjust the value of time used in calculations for determining road user costs. The adjustment is based on the annual Consumer Price Index for the previous year. The value of time to be used in the calculations this year is \$28.69 per passenger car hour and \$36.28 per truck hour.

If you have any questions concerning the calculation for the value of time, please call the Field Engineering Branch at 512-416-2559.

CC: Michael A. Chacon, P.E., Director, Traffic Operations Division
Wayne Ekdahl, P.E., RPLS, Deputy Director, Construction Division
Camille Thomason, P.E., Director, Design Division
Dan L. Stacks, P.E., Director, Maintenance Division
District Directors of Transportation Planning and Development
District Directors of Construction
