IH 635 Managed Lanes Project  
Technical Provisions

## **Attachment 02-1A**

Base Work Breakdown Structure (WBS)

The base Work Breakdown Structure (WBS) provided to the Developer shall be the basis for organizing all Work and shall be used to structure the preliminary Project Baseline Schedule, the Project Baseline Schedule, the Schedule of Values and the Project Pay Request.

The following base WBS represents Levels I through VI. Levels I through IV shall be as provided in the following base WBS. However, the Developer may revise and / or provide further detail to Levels V and VI to provide a clear understanding of the planned Work.
