

Notice of Public Meeting
Trammel-Fresno Road: from Vicksburg Boulevard to Fort Bend Parkway

The City of Missouri City, in cooperation with the Texas Department of Transportation (TxDOT), will conduct a public meeting on the proposed widening of Trammel-Fresno Road from Vicksburg Boulevard to Fort Bend Parkway, in Fort Bend County, Texas. The meeting will be conducted on Thursday, September 25, 2014, in the cafeteria of Hightower High School, 3333 Hurricane Lane, Missouri City, Texas 77459. The meeting will be structured in an Open House format, and exhibits will be displayed for viewing from 5:30 p.m. to 7:30 p.m.

The purpose of the meeting is to present the proposed improvements and to gather public input. The purpose of the proposed project is to update the operational conditions of the roadway to current design standards, improve connectivity between Trammel-Fresno Road and the local and regional transportation network, and increase capacity to enhance mobility and improve emergency vehicle access. Additionally, this project would continue the improvements to Trammel-Fresno Road that Fort Bend County and TxDOT are making on the east side of Fort Bend Parkway, providing for continuity.

The proposed project includes the addition of one travel lane in each direction. The inside lanes would be 12-feet wide, and the outside lanes would be 14-feet wide with 1-foot curb offsets. Directions of travel would be separated by a 14-foot wide raised median. Five foot wide, concrete sidewalks are proposed along both sides of Trammel-Fresno Road. Drainage would be via curb-and-gutter on both sides of the road. In addition, an approximately 3.62-acre detention pond would be built within City-owned ROW north of Trammel-Fresno Road and approximately 580-feet west of Fort Bend Parkway, adjacent to and south of the City's Mustang Bayou Regional Waste Water Treatment Plant. No additional right-of-way would be required for the proposed project, and no displacements would occur. Since the project area of Trammel-Fresno Road would be closed during construction, a temporary detour would route traffic around the site from the Trammel-Fresno Road intersections at Vicksburg Boulevard and Hurricane Lane southward to SH 6.

Representatives from the City of Missouri City, TxDOT, and the project study team will be available at the public meeting to answer individual questions. Public comments are encouraged. No formal presentation will be made. Information regarding this project is on file and available for viewing at TxDOT's Houston District Office (7600 Washington Avenue, Houston, Texas 77007), at TxDOT's Fort Bend Area Office (4235 SH 36, Rosenberg, Texas 77471), and at the Missouri City City Hall (1522 Texas Parkway, Missouri City, Texas 77489). These offices are open Monday through Friday from 8:00 a.m. to 5:00 p.m., excluding city and state holidays.

All interested persons are invited to attend this meeting. Persons interested in attending the meeting that have special communication or accommodation needs are encouraged to contact the TxDOT District Public Information Officer at (713) 802-5072 at least two working days before the meeting. The public meeting will be conducted in English. Requests for language interpreters or other special communication needs should be made at least two working days before the public meeting. TxDOT will make every reasonable effort to accommodate these needs.

Written comments about this project may be submitted at the meeting. Written statements may also be submitted to the TxDOT Houston District office at 7600 Washington Avenue, Houston, or mailed to the Director of Project Development, TxDOT Houston District, P.O. Box 1386, Houston, Texas 77251, or emailed to hou-piowebmail@txdot.gov. Comments must be postmarked or emailed by October 9, 2014 to be included in the public meeting record.
