As of September 1, 2008, all of the entities listed below are members of a proposer team on a Comprehensive Development Agreement Toll Project (CDA). This list is provided to assist TxDOT Employees in adhering to the TxDOT Ethics Policy and to the conflict of interest and ethics policies applicable to TxDOT’s CDA program in Texas Administrative Code, Title 43, Section 27.8.

The TxDOT Ethics Policy prohibits any employee involved in the procurement process for a contract, including a CDA, from accepting door prizes, gifts, benefits, or favors offered by anyone who could reasonably be expected to have an interest in or benefit from the resulting contract. The TxDOT Ethics Policy defines procurement process as the process of preparing, advertising, and awarding a contract, beginning with drafting the specifications or request for proposals and ending with the final award of the contract.

Texas Administrative Code, Title 43, Section 27.8, prohibits any of the entities listed below, and their affiliates, from offering, giving, or agreeing to give a gift or benefit to a member of the commission or a TxDOT employee whose work for the department includes the performance of procurement services relating to a CDA project, or who participates in the administration of a CDA. This includes anything reasonably regarded as pecuniary gain or pecuniary advantage, including any benefit or favor to another person in whose welfare the beneficiary has a direct and substantial interest, regardless of whether the donor is reimbursed.

A TxDOT employee who witnesses any conduct or activity that he or she believes to be in violation of Texas Administrative Code, Title 43, Section 27.8 or the TxDOT Ethics Policy should report it to the appropriate authority.
