The Texas Department of Transportation, in conjunction with the City of Dalhart and Hartley and Dallam counties, cordially invites you to attend a public meeting on a route study for a proposed new location US 54 Dalhart Relief Route around the City of Dalhart. The route study is a locally driven effort by a local workgroup and TxDOT. This project proposes improvements to the current system by providing a viable alternative for the US 54 freight traffic that currently travels through central Dalhart. This project would also provide improved mobility and accessibility to motorists in the area. The proposed project consists of a new four-lane, divided highway providing two lanes in each direction.
