

Join us for a **virtual public hearing** to learn more about proposed improvements for the Loop 360 at Courtyard Drive and RM 2222 intersections.

Loop 360 has severe and increasing traffic congestion. The Loop 360 program will upgrade multiple intersections along the roadway, improving mobility and safety in the area.

The Loop 360 at Courtyard Drive/RM 2222 project includes:

- Replacing the existing traffic signals on Loop 360 at Courtyard Drive with an underpass (where the Loop 360 mainlanes go under the cross street).
- Constructing a diverging diamond intersection (DDI) at RM 2222.
- Adding shared-use paths and sidewalks within the project limits.
