

Notice
Public Meeting – Open House

SH 29

From RM 1431 to RM 2241

CSJs: 0150-04-046 and 0150-04-047

Llano County, Texas

The Texas Department of Transportation is proposing improvements on SH 29 from RM 1431 to RM 2241 in Llano County, Texas. This notice advises the public that TxDOT will be conducting an open house style public meeting on the proposed project. The open house will be held on Thursday, Sept.27, 2018, at the East Llano County Annex meeting room at 8347 FM 1431, Buchanan Dam, TX 78609. Displays will be available for viewing between 5 and 7 p.m. The purpose of the open house is to present the planned improvements and to receive public comment on the proposed project.

Within the project limits, SH 29 is currently one 12 foot-lane in each direction with shoulders of variable width. The proposed project would widen SH 29 to add alternating passing lanes and 10 ft. shoulders throughout the project limits. The project would not require new right of way (ROW) and no displacements are anticipated.

Environmental studies, maps showing the project location and design, a tentative construction schedule, and other information regarding the project will be available for inspection at the open house. Comments from the public regarding the project may be submitted at the open house or by mail to the project manager, John Burke, at the TxDOT Austin District Office; 7901 North I-35, Austin, TX, 78753. Comments may also be submitted by email to John.Burke@txdot.gov. Comments must be received on or before Oct. 12, 2018 to be part of the official project record.

Persons interested in attending the meeting who have special communication or accommodation needs are encouraged to contact the district public information officer at or at least two days prior to the meeting. Because the public meeting will be conducted in English, any requests for language interpreters or other special communication needs should also be made at least two days prior to the public meeting. TxDOT will make every reasonable effort to accommodate these needs.

If you have any general questions or concerns regarding the proposed project or the hearing, please contact John Burke, Project Manager, at (512)832-7160 or at John.Burke@txdot.gov.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.
