

US 87 (W. Commerce) Reconstruction—Brady, McCulloch County

PURPOSE AND NEED

The purpose of the proposed project is to reconstruct the roadway to meet Americans with Disabilities Act standards by adding ramps and sidewalks, improving pavement structure, lighting, and improving drainage. The need for the project arises from poor pavement conditions created the project need.

PROJECT DESCRIPTION

The proposed project would reconstruct the pavement, upgrade sidewalks, add lighting, add Americans with Disabilities Act (ADA) ramps, and improve drainage.

Right-of-Way	Engineering	Construction
TBD	\$280,000	\$5.75 million*

*estimated

Status: Preliminary design. Traffic studies have indicated the need for additional turn lanes and vehicle storage in existing turn lanes.

Environmental Clearance: Preliminary investigations and background activities are ongoing including public meeting on October 29, 2019.

Construction: Letting (bidding) for construction is scheduled for May 2020 with construction to begin shortly after letting.
