

Finding of No Significant Impact for a FHWA Project

Proposed Action: SH 286
Project Limits: From FM 43 (Weber Road), to south of FM 2444 (S. Staples Street)
Cities: Corpus Christi **County:** Nueces **State:** Texas
TxDOT CSJ(s): 0326-01-056

In accordance with 23 CFR Section 771.119 and Section 771.121, the Texas Department of Transportation (TxDOT) has determined that the SH 286 project will not have a significant impact on the human or natural environment.

This Finding of No Significant Impact (FONSI) for the Preferred Alternative is based on the final Environmental Assessment (EA) dated September 2019 and the entire project record. This decision documents the selection of the Build Alternative presented in the final EA as the Preferred Alternative, which is described as:

The Build Alternative would include widening the existing 2-lane undivided highway to a controlled access four-lane freeway with two 12-foot main lanes in each direction, the main lanes having four-foot inside shoulders and 10-foot outside shoulders, two 12-foot frontage road lanes in each direction with a 12-foot outside shoulder, entrance and exit ramps, and five-foot sidewalks outside the frontage road shoulders. The proposed improvements would include grade separations at CR 20A, CR 22, and FM 2444. The project length, including all transitions, is approximately 3.2 miles.

A Notice of Availability of the draft EA and public hearing was issued on February 13, 2019, and February 24, 2019.

A public hearing for this project was held on February 28, 2019.

No changes to the draft EA were made as a result of comments received on the draft EA during the posted comment period or from comments made at the public hearing.

Public Hearing Documentation has been prepared and is available for review on request.

The final EA and reports contained in the file of record have been independently evaluated by TxDOT and determined to adequately and accurately discuss the need, purpose, alternatives, environmental issues, impacts of the proposed project, and appropriate mitigation measures. These documents provide sufficient evidence and analysis for determining that preparation of an Environmental Impact Statement is not required. These documents are incorporated by reference into this decisional document.

Based upon TxDOT's review and consideration of the analysis and evaluation contained in the EA for this project, and after careful consideration of all social, economic, and environmental factors, including input from the public involvement process, TxDOT hereby issues this Finding of No Significant Impact for the SH 286 project from FM 43 to south of FM 2444.

TxDOT will ensure adherence and completion of all project commitments described in the final EA July 2019, Section 8.0. TxDOT will ensure that any and all local, state, or federal permit requirements and conditions are met and otherwise complied with.

Finding of No Significant Impact for a FHWA Project

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and the Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.
