

Instructions for viewing a live virtual public meeting/hearing

A live virtual public meeting/hearing presentation is the same presentation you'd hear in-person.

Before the meeting/hearing

Increase the volume on your computer or mobile device.

On the date and time of the meeting, click the live presentation link on the [TxDOT.gov](https://www.txdot.gov) meeting page and follow the instructions to log in.

You may call in to the meeting if you are unable to attend online. Information for calling in can be found on the [TxDOT.gov](https://www.txdot.gov) meeting page.

During the meeting/hearing

- ▶ Only the presenter will speak. You will be muted during the presentation.
- ▶ You may submit questions in the chat box at any time. At the end of the meeting, the project team will answer as many questions as possible.
- ▶ Submitting a question during the live-stream does not guarantee it will be answered. Questions not answered during the live-stream will be answered by the project team within a reasonable amount of time.
- ▶ Respect all attendees and the presenter. You will be removed from the meeting and your questions will be removed from the chat box at our discretion for foul language, threats, and obscenities.

After the meeting/hearing

- ▶ Return to the project meeting page to view project materials, submit comments and ask questions.
- ▶ Submit your comments by the comment period deadline – check the deadline on [TxDOT.gov](https://www.txdot.gov) or contact the district office with questions.
- ▶ A recording of the presentation will be posted on the meeting page following the live presentation.
