Meeting Purpose:

Overview:

The 86th Texas Legislature passed House Bill 1079 to study the Ports-to-Plains Corridor, including an evaluation of the feasibility of, and the costs and logistical matters associated with improvements that create a continuous flow, four-lane divided highway that meets interstate highway standards to the extent possible, including improvements that extend Interstate 27 between the New Mexico and Oklahoma borders and Laredo. The Ports-to-Plains Corridor has been divided into three "segments" as shown to the right.
