Overview

The Texas Department of Transportation (TxDOT) has established the following list of prohibited technologies in accordance with TxDOT's [Acceptable Use of Information Resources Technologies Policy](#) and to comply with the [Texas Covered Applications and Prohibited Technologies](#) requirements. This list is derived from the current Texas Cyber Command Prohibited Technologies list, last updated February 4, 2026.

Section I, Prohibited Developers and **Section II, Prohibited Hardware/Equipment/Manufacturers**, list companies or organizations whose entire catalogs of products are prohibited. Any subsidiary or affiliates of an entity listed in the sections below are also prohibited.

Section III, Prohibited Software/Applications, is a list of applications that are prohibited on any TxDOT-owned devices. This list is not exhaustive, as the developers and hardware/equipment/manufacturers can release new applications every day.
