

Save your child with a car seat.

Most parents believe their children are properly buckled up, but in fact, nearly 60% of all car seats are not used correctly.

Car seats save lives, but you need to use the recommended car seat for your child. As they grow, make sure the seat is the correct size, it is installed correctly and ensure that your child is properly buckled up.

Find information about correct car seat use and guidance on choosing the right seat for your child at SaveMeWithASeat.org
